SOCIAL LEGACY

JUSTIFICATION

The Congress existence is justified by the fact that Futsal is the most practiced Collective Sport in Brazil, following the data by the Brazilian Institute of Geography and Statistics (IBGE) that estimates that we have around twelve millions of players across North and South of the country. This year we celebrate ninety years of the practice of this modality in Brazil, and forty-one years of administrative autonomy of the CBFS management entity of the heavy ball sport in our country.

During the Congress Opening Ceremony a homage to the relevant professionals and their services to the sport will be performed

SOCIAL LEGACY

With the goal to leave a Social Legacy, the International Congress of Futsal will support one Social Project in the Hosting City through the supplying of sportive material to allow theoretical and practical intervention.

In 2019 the Organization Committee together with the Sponsoring Businesses of the International Congress Of Futsal 2019 made the donation of eighty uniforms and materials to children and teenagers of the Social Project "Toque de Fé" (roughly translated to "Faithful Pass") operating in the Administrative Region of Recanto das Emas, in the Federal District, coordinated by Teacher RENATO SILVEIRA DE SANTANA.

Another action focused on leaving a social legacy led by the Committee in partnership with their Sponsors was the donation of twenty materials to the Brazilian Deaf Futsal Team that in 2019 disputed the Futsal Worldwide Championship in Swiss.
